### SKILLS

---

Proficient in frontend and backend development with HTML, CSS, TypeScript, Next.js, React, Bootstrap, Tailwind CSS, Node.js, ASP.NET, Python, Java, and C#. Experienced in database management using MySQL and MongoDB, cloud computing and DevOps with AWS and Docker, and version control with Git/GitHub. Strong problem-solving skills, teamwork experience, and adaptability in fast-paced environments.

### EDUCATION

---

**Nova Scotia Community College**

*IT Web Programming*

**Truro, NS**

*September 2023 – Present*

### PROJECTS

---

**Employee Claims System**

*Capstone Project*

*January 2025 – Present*

- Designed and developed a full-stack claims management system allowing employees to submit reimbursement requests.
- Built an administrative interface for managing users, categories, and claim approvals.
- Technologies used: Next.js (React), MongoDB, TypeScript, RESTful APIs

**World Map Desktop App**

*Self Directed Study*

*January 2025 – Present*

- Developed a world map desktop app using ElectronJS.
- Users can browse the world map, and click on any country to view details such as the country flag, population, land area, currency, languages, and more.
- Technologies used: React, ElectronJS, TypeScript, RESTful APIs.

### WORK EXPERIENCE

---

**Valley Variety Convenience Store**

*Store Associate*

**Valley, NS**

*July 2017 – Present*

- Reliable and customer-focused store associate with seven years of experience in retail operations.
- Proven ability to open and close the store independently, manage inventory, and provide excellent customer service.
- Skilled in handling cash, monitoring inventory, stocking shelves, training new staff on store procedures, and ensuring smooth day-to-day store operations.
